Welcome

The Specialty Pharmacy at the Memorial Healthcare - NOW building is designed to ensure patients and their caregivers (that are in the area) receive the attention and support they need to be successful with their specialty medications and treatment. You can count on our guidance, compassion and education throughout the length of your therapy.

A specialty medication is one that:

- Requires extra attention from your health care team
- May treat a rare, serious, or chronic condition
- May be expensive
- May be given by mouth, injection, infusion, or applied topically

**Thank you for being
a patient of the
Memorial Healthcare
Specialty Pharmacy.**

What to expect:

- You will be contacted by members of the pharmacy team to ensure you have access to your medication without experiencing any gaps in therapy.
- We will partner with you and your provider to achieve therapy treatment goals.
- We will conduct a thorough review of your medications which includes an accurate listing of your current prescriptions and over the counter, herbal or homeopathic medications.
- We will conduct screenings for drug interactions and disease states.

As a Memorial Healthcare Specialty Pharmacy patient, you have access to our specialized pharmacy services:

- Clinical support for specialty medications 24 hours a day, 365 days a year.
- Assisting your healthcare providers to create a medication journey tailored to your specific condition.
- One-on-one counseling with our pharmacy staff either in office, over the phone, or both. In addition, we will provide you with educational materials to ensure you understand the medications you are taking.
- Assistance with your insurance authorization process and enrollment in qualifying financial support programs.
- Refill reminders tailored to your preference.
- Free home delivery services and pick-up options that are convenient for you and your schedule.

About Us

to Your Contacts!**

OVERVIEW OF OUR SERVICES

Memorial Healthcare Specialty Pharmacy offers comprehensive specialty pharmacy services designed to address the needs of each patient. Our care team is made up of clinical pharmacists and technicians specially trained in your condition.

We offer support by:

- Discussing how the medication will improve your condition
- Educating you on how and when to take your medication
- Offering free consultations by phone and in-person
- Helping you manage side effects
- Reminding you when it's time for a refill
- Offering free delivery of your specialty medications to the location of your choice
- Addressing your treatment concerns
- Navigating benefits and financial assistance

**We are committed to
providing you with the
highest quality specialty
pharmacy services.**

Patient Complaints, Concerns, or Issues

You have the right and responsibility to express concerns, complaints or dissatisfaction about the services you have received without fear of repercussions or an unreasonable interruption of services. We will strive to resolve any concerns or issues you experience as quickly as possible.

If we cannot resolve your complaint promptly, or your complaint requires additional research, we will contact you with the results of our investigation, either via telephone or in writing of the complaint as soon as possible.

If the pharmacy staff is unable to help resolve your complaint to your expectation, you may contact the Specialty Services Manager at **(989) 729-4781**.

If you are still not satisfied you may contact our accrediting body or the Board of Pharmacy.

WE VALUE YOUR FEEDBACK

Patient satisfaction is important to us and your opinion matters! We want to know what we can do to better serve you!

A member of our pharmacy team may contact you to ask for your feedback about the quality of care you have received from the Memorial Healthcare Specialty Pharmacy.

Feedback is important for us to improve, so please share!

Our Services

PATIENT MANAGEMENT PROGRAM

The Patient Management Program (PMP) is a program that our Specialty Pharmacy has created to help you get the most from your medication.

Upon admission to Memorial Healthcare Specialty Pharmacy you will be automatically enrolled into our PMP which is customized to your disease state and therapy.

The program is designed to maximize your opportunity for a positive outcome and minimize any negative effects from your specialty therapy by improving compliance to therapy and reducing adverse events and potential complications..

Specialty medications are often considered high-risk medications because of their high cost, high frequency for side effects and in some cases, difficult administration processes. By participating in the PMP, our clinicians will be able to more closely monitor your response to therapy, more quickly identify any side effects or other areas of concern and work with your prescriber to address these areas of concern.

Also, your participation in the PMP allows our reimbursement team to better assist in ensuring you are provided access to all assistance programs that are available to you. The PMP is one of the many services we offer and is free of charge to you.

Our Services

OUR PERSONALIZED APPROACH

- Side effect management through regular check-in phone calls from our staff
- Proactive refill call reminders to ensure you never run out of medication
- Prompt communication with your healthcare team should issues arise
- Proven clinical guidelines utilization
- Financial assistance facilitation

Participation does not replace going to your regularly scheduled physician or nurse practitioner, clinic visits, or your routine refill calls to schedule your delivery.

OPTING-OUT OF THE PATIENT MANAGEMENT PROGRAM

Ongoing participation in the program is highly encouraged. However, you may choose to opt out of the PMP at any point in your therapy.

You may also choose to opt back into the program at any point if you have opted out. To opt back into the PMP, simply tell any staff member and they will connect you with the pharmacist to make the appropriate notifications in your electronic patient record.

PATIENT MANAGEMENT PROGRAM RIGHTS & RESPONSIBILITIES

As a participant of the PMP, you have the following rights and responsibilities. Some of these will overlap with your general patient rights and responsibilities reported elsewhere in this packet.

- The right to have personal health information shared with the PMP only in accordance with state and federal law
- The right to identify the program's staff members, including their job title, and to speak with a staff member's supervisor if requested
- The right to speak to a health professional
- The right to receive information about the PMP
- The right to decline participation, revoke consent, or opt out at any point in time
- The responsibility to submit any forms that are necessary to participate in the program, to the extent required by law
- The responsibility to give accurate clinical and contact information and to notify the PMP of changes in this information
- The responsibility to notify their treating provider of their participation in the PMP, if applicable.

CLINICAL SUPPORT

A trained specialty pharmacist will explain your medication, either during your clinic visit or over the phone. We are also available to answer questions, provide education on self-administration, and communicate with your provider as needed. Our pharmacists are available 24 hours a day to address any medication issues after hours.

REFILL REMINDERS

We will call you with refill reminders 5-7 days before you are scheduled to run out of medication. You can also contact the specialty pharmacy at any time to request a refill.

SUPPORT TOOLS AND PRODUCTS

Our team will provide the tools and products you need to succeed in your treatment. These may include patient education sheets, teaching materials provided by manufacturers, and/or disposal containers and other supplies associated with the administration of your medication.

Our Services

CONVENIENT PICKUP AND DELIVERY OPTIONS

Once your prescription is ready, we offer the following delivery options for your convenience:

Pick up in person at the Memorial Healthcare Specialty Pharmacy

Home delivery
(signature required at
time of delivery)

All specialty medications will be delivered free of charge. We will coordinate delivery of your specialty medications to your home or an approved alternate location. If your medication requires special handling or refrigeration, we will package and ship it accordingly. If you cannot be there to accept the package, we can arrange for it to be left either at your home or at an approved alternate location. If you miss your delivery, please let us know and we will work with you to reschedule your delivery.

Memorial Healthcare Specialty Pharmacy will make every effort to deliver your medications early if a weather warning is in place. A member of our pharmacy team will attempt to contact you, in order of disaster priority, with any special instructions. Please make sure you have a secondary contact on file to ensure there is no gap in therapy.

LANGUAGE AND CULTURAL SERVICES

We are committed to welcoming diversity and complying with standards for Language & Cultural Services. Memorial Healthcare Specialty Pharmacy can provide trained, qualified medical interpreters at no cost to our patients/families in order to ensure effective communication for those who are:

- Limited-English Proficient (LEP)
- Deaf/Hard of Hearing (HOH)
- Other communication challenges

We are also focused on providing resources and education that support the practice of culturally competent care within our organization to diverse patient populations. Please notify a pharmacy staff member if you have a preferred language or mode of communication other than English, or for any additional communication or cultural needs.

Our Services

WHAT TO DO IN THE EVENT OF A MEDICATION RECALL

If there is a recall on one of your medications, we will follow these steps:

- Review our inventory and records to see if we have the medication in stock.
- Remove and quarantine any stock of the medication in the dispensary.
- Follow the steps recommended by the manufacturer and document the steps with the date completed and the signature of the person completing the form.
- Contact any patient that may have potentially received the recalled medication either by phone or certified letter. If you have taken the medication, we will contact your prescriber.

WHAT TO DO IF YOU FEEL YOU MAY BE HAVING AN ADVERSE REACTION TO YOUR MEDICATION

If you feel you are experiencing an adverse drug reaction with medical symptoms such as shortness of breath, skin rash, hives, fever, swelling, or wheezing that require urgent attention you should be seen in a local emergency room, or call 911.

Please contact the pharmacy the next business day and inform our staff of the reaction and any actions that may have been taken.

WHAT TO DO IF YOU SUSPECT A MEDICATION ERROR

Medication errors are serious matters that need to be addressed as soon as they are discovered. If you suspect there has an error with your medication, please contact the Specialty Pharmacy immediately and ask to speak with a pharmacist or Pharmacy Manager.

How to Use Our Services

FILLING A NEW PRESCRIPTION

In most instances, your provider will electronically send a prescription to our pharmacy when your treatment is prescribed in the office or clinic.

We can also fill prescriptions written on a paper prescription or called to the pharmacy via telephone by the office of your provider.

We can also contact your provider to obtain a new prescription at your request or when you are out of refills. Once the prescription is received, reviewed, and reimbursement is arranged, we will fill your prescription.

ORDERING REFILLS

A specialty pharmacy technician will contact you before your medication is scheduled to run out. We will check on your progress, ask about any side effects, verify dosage and determine the shipment or pick up time of your next refill. Payment is required before your medication can be shipped.

You can also pick up your prescription at the pharmacy at your convenience. Please call Memorial Healthcare Specialty Pharmacy during our normal business hours if you have questions or need assistance.

MEDICATIONS NOT AVAILABLE AT MEMORIAL HEALTHCARE SPECIALTY PHARMACY

Memorial Healthcare Specialty Pharmacy has access to and stocks a wide range of specialty medications. If we are not able to obtain your medications due to manufacturer restrictions, back order, or other limitations, we will work with you and another pharmacy to ensure you receive your prescription medication.

PRESCRIPTIONS THAT MUST BE TRANSFERRED TO ANOTHER SPECIALTY PHARMACY

If we cannot fill your prescription for any reason, we will transfer it to a pharmacy of your choice that can provide the medication.

MEDICATION SUBSTITUTION

The pharmacist will substitute a generic and therapeutically equivalent drug for the drug specified on the prescription as long as the price of the substituted drug does not exceed the price of the drug specified by the practitioner, unless a practitioner has handwritten on the prescription form, along with the practitioner's signature, "dispense as written," "DAW," "brand," "brand necessary" or "brand medically necessary" unless otherwise stipulated by state regulations.

Patient Rights & Responsibilities

As a patient of Memorial Healthcare Specialty Pharmacy, you have the following rights and responsibilities. If you feel any of these rights have not been provided, please contact our Specialty Pharmacy manger at (989) 729-4781.

PATIENT RIGHTS

- Be fully informed in advance about care/service to be provided, including the disciplines that furnish care and the frequency of visits, as well as any modifications to the plan of care
- Be informed, in advance both orally and in writing, of care being provided, of the charges, including payment for care/service expected from third parties and any charges for which the patient will be responsible
- Receive information about the scope of services that the Specialty Pharmacy will provide and specific limitations on those services
- Participate in the development and periodic revision of the plan of care
- Refuse care or treatment after the consequences of refusing care or treatment are fully presented
- Be informed of patient rights under state law to formulate an Advanced Directive, if applicable
- Have one's property and person treated with respect, consideration, and recognition of/ patient dignity and individuality
- Be able to identify visiting personnel members through proper identification
- Be free from mistreatment, neglect, or verbal, mental, sexual, and physical abuse, including injuries of unknown source, and misappropriation of patient property
- Voice grievances/complaints regarding treatment or care or lack of respect of property, or recommend changes in policy, personnel, or care/service without restraint, interference, coercion, discrimination, or reprisal
- Have grievances/complaints regarding treatment or care that is (or fails to be) furnished, or lack of respect of property investigated
- Confidentiality and privacy of all information contained in the patient record and of Protected Health Information (PHI)

PATIENT RIGHTS CONTINUED

- Be advised on the Specialty Pharmacy's policies and procedures regarding the disclosure of clinical records
- Choose a healthcare provider, including an attending physician, if applicable
- Receive appropriate care without discrimination in accordance with physician's orders, if applicable
- Be informed of any financial benefits when referred to an organization
- Be fully informed of one's responsibilities

PATIENT RESPONSIBILITIES

- Submit forms that are necessary to receive services
- Provide accurate medical and contact information and any changes
- Notify the treating provider of participation in the services provided by the organization
- Notify the organization of any concerns about the care or services provided

The Billing Process

INSURANCE NAVIGATION & FINANCIAL SUPPORT

Specialty medications are often expensive and require additional steps to be approved by insurance. These additional steps are called a “prior authorization” and may require supporting documentation from your prescriber to be approved. Our pharmacy team will work with your insurance company and your provider to get the prescription authorized. If your insurance copay is unaffordable, we will work with the financial support resources to possibly lower your out-of-pocket expense.

INSURANCE

Memorial Healthcare Specialty Pharmacy can accept and bill most insurance companies. If your insurance requires you to use another pharmacy, we will work with you to ensure your prescription is transferred and you have access to your medication.

If you do not have insurance, or would like to pay cash, just ask and we will provide you with the cash price for any specialty medication.

COPAYS & FINANCIAL ASSISTANCE

Memorial Healthcare Specialty Pharmacy will bill your insurance company for you. However, you may still owe a portion of the cost, which is called a copayment or coinsurance. You will be responsible for paying your copayment when you order your medication or refills. We will inform you of the exact amount you need to pay.

If you are out-of-network with our pharmacy, we will provide you with the out-of-network cost. If your copayment is not affordable, we will work with you and available financial support resources to attempt to lower your out-of-pocket expense. You will always be informed of the exact amount that you are responsible to pay for your prescription.

PAYMENT OPTIONS

If you are responsible for a copayment, or any balance after financial assistance, we accept all major credit cards. We also accept cash, personal checks and flexible spending or health savings accounts. If for any reason you still owe a balance, the balance will need to be paid before your next refill.

General Information & Tips for Success

Before taking your medication, let us know if you:

- Have any drug allergies, unusual reactions to medication, food or other substances such as latex
- Are taking any over-the-counter medications or herbal products such as vitamins, supplements or dietary aids
- Are taking any prescription medications
- Are, may be, or are trying to become pregnant
- Are breastfeeding
- Have any diagnosed medical problems
- Are on a special diet

What you should know about your medication:

- The name of your medication and what it is used for
- How to take it, what time of day and for how long
- How long it will take your medication to start working
- What kind of side effects to look for and what to do if you experience them
- What to do if you miss a dose
- How to store your medications and if there are any specific storage requirements
- How to dispose of your medication and supplies
- Whether the medication can be taken with or without food

Disposing of Your Medications & Supplies

HOW TO DISPOSE OF YOUR UNUSED MEDICATIONS

Should you need to dispose of unused medications, there is a medication take-back bin located in the lobby of Memorial Healthcare Main Campus.

Alternatively, the unused medications can be mixed into cat litter or used coffee grounds and then placed in a sealed container. The sealed container can then be disposed of in your household trash.

How to Dispose of Chemotherapy or Hazardous Drugs

- DO NOT throw chemotherapy or hazardous drugs in the trash or flush it down the toilet.
- Unused chemotherapy or hazardous drugs can be returned to the red medication take-back bin located in Memorial Healthcare's Main Campus.
- You can also contact your local health department or waste collection service for disposal instructions.

How to Dispose of Home-Generated Biomedical Waste

Home-generated biomedical waste is defined as any type of syringe, lancet or needle used in the home to inject medication or draw blood. Special care needs to be taken with the disposal of these items to protect you and others from injury, and to keep the environment safe and clean. If your therapy involves the use of needles, an appropriately sized sharps container will be provided.

Needle-Stick Safety

- Never put the cap back on a needle once removed
- Throw away used needles immediately after use in a sharps disposal container
- Plan for safe handling and disposal before use
- Keep out of the reach of children and pets
- Report any needle sticks or sharps-related injuries to your physician

Sharps Containers

After using your injectable medication, place all needles, syringes, lancets, and other sharp objects into a sharps container. Do not place sharp objects such as needles or syringes into the trash unless they are contained within a sharps container. Do not flush them down the toilet. If a sharps container is not available, a hard plastic or metal container with a screw-on top or other tightly securable lid (for example, an empty hard can or liquid detergent container) could be used.

Disposal

Check with your local waste management collection service or public health department to verify disposal procedures for sharps containers in your area.

You can also visit the Centers for Disease Control and Prevention (CDC) Safe Community Needle Disposal website at [cdc.gov/needledisposal](https://www.cdc.gov/needledisposal).

Emergency Preparedness Information

KNOW WHAT TO EXPECT & WHAT TO DO

Know what the most common emergencies are in your area and what you should do if one occurs. If the emergency requires you to evacuate, please remember to take your medications with you (with ice bricks and a cooler if your medication requires refrigeration) and let us know where you have evacuated to so we can ensure there are no gaps in your therapy. If you miss your medication delivery for any reason (not available, cannot get to your home, or any other reason), please call the pharmacy as soon as possible and we will do our best to assist you.

KNOW WHERE TO GO

One of the most important pieces of information you should know is the location of the closest special needs shelter. These shelters are open to the public during voluntary and mandatory evacuation times and specialize in caring for patients with special medical needs. They are usually the safest place to go if you cannot get to a friend or family member's home.

REACHING US

If the pharmacy must close due to a disaster, we will provide instructions on contacting our staff and other important information on our answering machine message.

If the Emergency was Unforeseen

We will try to locate you using the numbers you provided in order to determine your safety and location. If travel is restricted due to damage from the disaster, we will attempt to alert you through the alternative phone numbers you provide.

Your local Red Cross, local law enforcement agencies, local news and radio stations usually provide excellent information and tips for planning.

AN OUNCE OF PREVENTION...

We would much rather prepare you for an emergency ahead of time than wait until it has happened and then send you the supplies you need. To do this, we need for you to give us as much information as possible before the emergency. We may ask you for the name and phone number of a close family member, a close friend, or neighbor. We may ask you where you will go if an emergency occurs. Will you go to a shelter or a relative's home? If your prescriber has instructed you to go to a hospital, which one is it?

Additional Helpful Tips

MAKE A PERSONAL DISASTER KIT

Include in your kit:

- Have an accurate medication list
- A small supply of any over-the-counter medications that you frequently use
- The phone numbers of your prescriber, your pharmacy, and any other emergency services or contacts written down. The internet may not be available.
- Bottled water
- Hand sanitizer, soap, and paper towels
- Any non-perishable snacks that you may need
- A flashlight

For more information: Visit the FEMA website at www.fema.gov

What to Know to Stay Well

HANDWASHING

Keeping hands clean is one of the most important steps to staying well. Basic hand washing with soap and water will reduce the spread of germs significantly. If the water is unclean, hand sanitizer should be used.

When should you wash your hands?

- Before, during, and after preparing food
- Before eating food
- Before and after caring for someone who is sick
- Before and after treating a cut or wound
- After using the toilet
- After changing diapers or cleaning up a child who has used the toilet
- After blowing your nose, coughing, or sneezing
- After touching an animal, animal feed, or animal waste
- After handling pet food or pet treats
- After touching garbage

How should you wash your hands?

- Wet your hands with clean, running water (warm or cold) and apply soap.
- Lather your hands by rubbing them together with the soap. Be sure to lather the backs of your hands, between your fingers, and under your nails.
- Scrub your hands for at least 20 seconds. Need a timer? Hum the “Happy Birthday” song from beginning to end twice.
- Rinse your hands well under clean, running water.
- Dry your hands using a clean towel or air dry them.

THE FLU

THE FACTS

- Affects millions of people every year
- More than 250,000 admitted to the hospital
- More than 18,000 may die

PREVENTION

- Get a flu shot after checking with your prescriber
- Cover your cough
- Try to stay away from others that are sick
- Stay home
- Avoid touching your eyes, nose, and mouth
- Clean and disinfect areas that could be contaminated

Confidentiality & Your Protected Health Information

Protecting the confidentiality of the information you, your health plan and your healthcare providers share with us is important to Memorial Healthcare Specialty Pharmacy. We use this information only to offer quality care and services your health plan has contracted with us to provide.

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) includes provisions to ensure individual privacy of your personal health information. Memorial Healthcare Specialty Pharmacy reserves the right to use and disclose information obtained in the context of our business, as necessary to conduct business as a specialty pharmacy. Memorial Healthcare Specialty Pharmacy complies with all applicable laws and business policies when doing so.

OUR RESPONSIBILITIES

- We are required by law to maintain the privacy and security of your protected health information.
- We will let you know promptly if a breach occurs that may have compromised the privacy or security of your information.
- We must follow the duties and privacy practices described in this notice and give you a copy of such notices.
- We will not use or share your information other than as described here unless you tell us we can in writing. If you tell us we can, you may change your mind at any time. Let us know in writing if you change your mind.

For More Information Regarding Your Privacy Rights

Contact the Privacy Officer at Memorial Healthcare Owosso or go to:
www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/noticepp.html

Changes to the Terms of This Notice

We can change the terms of this notice, and the changes will apply to all information we have about you. The new notice will be available upon request, in our office, and on our web site.

If the Specialty Pharmacy has a Notice of Privacy Practices a copy should be provided to the patient. This can be as a part of the welcome packet, a second document of information that the Notice of Privacy Practices may be online.
